PROFESSIONAL PROFILE

Software Engineering graduate from Mekelle University with a strong foundation in backend development, scalable software architecture, and full-stack application development. Experienced in designing and building web and mobile applications using **Django**, **FastAPI**, **Flutter**, **React.js**, **PostgreSQL**, and RESTful APIs. Passionate about developing reliable, secure, and scalable software solutions that address real-world challenges through technology and innovation.

Strong interest in backend engineering, software architecture, artificial intelligence, database systems, and cloud-based application development. Recognized for strong analytical and problem-solving abilities, disciplined work ethic, adaptability, leadership, and a commitment to continuous learning and engineering best practices. Eager to contribute to innovative software development teams while continuously expanding technical expertise and creating meaningful technological impact.

CORE STRENGTHS

- Backend System Design & Development
- REST API Development
- Software Architecture & Design
- Full-Stack Application Development
- Scalable Database Design
- Leadership & Team Coordination
- Problem Solving & Analytical Thinking
- Community-Oriented Innovation
- Self-Learning & Adaptability
- Structured & Organized Workflow Management

TECHNICAL SKILLS

Programming Languages: Python, Java, Dart, JavaScript, Go

Frontend & Mobile Technologies: Flutter, React.js, HTML, CSS

Backend Technologies: Django, Django REST Framework (DRF), FastAPI

Databases: PostgreSQL, MySQL, SQLite

Tools & Platforms: Git, GitHub, Docker, Postman, Vercel, Render, Redis, Celery

PROJECTS

AI-Based Smart Learning Platform

Flutter • Django • PostgreSQL

Developed an AI-powered educational mobile platform designed to improve personalized learning experiences for children through interactive and scalable learning systems.

Key Contributions

- Built Flutter mobile frontend integrated with Django REST APIs.
- Implemented authentication and user management systems.
- Designed scalable backend architecture using PostgreSQL.
- Developed AI-assisted recommendation and learning features.
- Optimized API communication between frontend and backend systems.

 [GitHub Repository](#)

E-Commerce Platform

• Django • PostgreSQL • Next.js • Redis • Celery

Developed a scalable full-stack e-commerce platform featuring secure background task execution frameworks and real-time frontend communications.

Key Contributions

- Implemented granular user authentication and catalog management systems.
- Engineered asynchronous task workflows using Redis and Celery for background processing.
- Optimized system communications via automated email operations utilizing SMTP protocols.
- Orchestrated responsive interface interactions and handled live deployments across Render and Vercel.

 [Live Demo](#)  [GitHub Repository](#)

PROFESSIONAL EXPERIENCE

Frontend Developer Intern

MEDCO Technology Solution — Addis Ababa, Ethiopia

Duration: 3 Months

Responsibilities & Key Contributions

- Developed a modular, dynamic, and fully responsive frontend blog application built entirely on **Vue.js**.
- Architected client-side routing structures using **Vue Router** to handle fluid transitions, dynamic page generation, and secure navigation guards.
- Configured state persistence and user sessions locally by utilizing browser **LocalStorage** mechanisms.
- Implemented **asynchronous operations** and non-blocking network requests using **Axios** to consume backend RESTful APIs efficiently.
- Streamlined data synchronization routines and parsed raw API data payloads into clean reactive views.
- Coordinated structured data management pipelines by integrating interactive Google Forms and automated spreadsheets.

EDUCATION

Bachelor of Science (BSc) in Software Engineering

Mekelle University

2012 – 2018 E.C (Final Year)

CGPA: 3.7

Academic Achievements

- Successfully passed the **National University Exit Examination** with a score of **81.25%**.
- Maintained a cumulative GPA (CGPA) above **3.7**.

CERTIFICATIONS & TRAININGS

Cursor Hackathon Certificate

2017 E.C.

Organization: Cursor Ethiopia in collaboration with ALX

Mobile & Computer Maintenance Training

2016 E.C.

Organization: One Day Mobile and Computer Maintenance

LANGUAGES

- English — Professional Proficiency
- Amharic — Fluent
- Tigrigna — Native
